Architectural Windows,
Doors and Millwork

COLLECTION

About Caoba

Welcome to CAOBA Manufacturing, a multi-generational family-owned business. Since 1983 we have been a premiere destination for exquisite, handcrafted windows, doors, and millwork that blends timeless elegance with exceptional craftsmanship.

At CAOBA, we believe that the exceptional craftsmanship of your project's windows, doors, and millwork speaks highly about the character and nature behind the project's owner. With a rich heritage of craftsmanship rooted in Antigua Guatemala, we have mastered the art of creating windows, doors, and millwork that reflect sophistication, durability, and unique design through a modern facility VERIFIED by numerous international certifications.

Preserving the essence of traditional craftsmanship is CAOBA's main goal while enhancing every project's aesthetic appeal and performance through our products.

Our Products

We craft Architectural Windows, Doors, and Millwork

Caoba is Design Dictated Manufacturing. Our commitment to design flexibility allows architects and designers the option to select wood species, profiles, hardware, dimensions, glass, finish, and more. We want to build your ideas into a reality by providing you with innovative products and a signature customer service. CAOBA will manufacture to your design specifications. We pride ourselves in our flexibility to manufacture custom products exactly the way you envision them, down to the finest details.

Pivot Doors

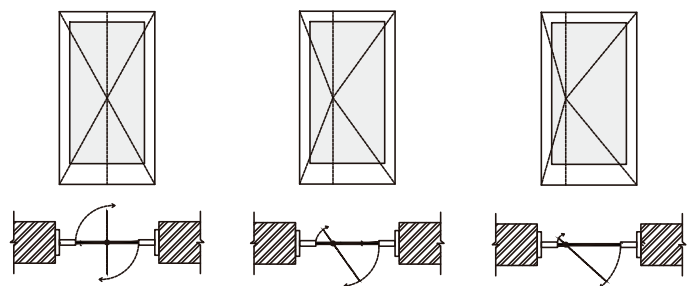

Redefine the function of an entry by using a pivot door. The hinges in a pivot door are concealed at the top and bottom of the door sash, obtaining minimal gaps and a modern design.

Pivot Doors allow you to exceed traditional dimensions while maintaining a high level of security from forced entry since hinges are not exposed.

Make a statement and choose a pivot door by CAOBA.

Available Configurations

Lift & Sliding

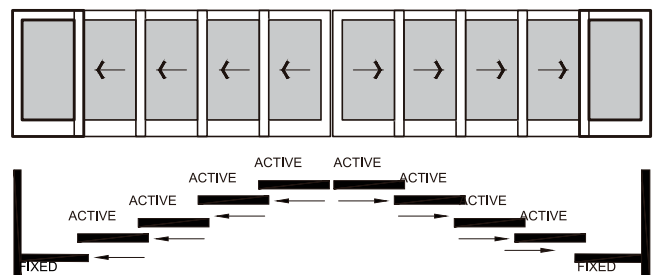

Lift and Sliding Doors are known for their effectiveness in sealing elements from the exterior creating better weather and acoustic performance. They are secure from forced entry in their closed position, and their mechanism is also a safety feature preventing young children from operating heavy panels.

For a beautiful large opening with a panoramic view choose our pocket L&S door.

Multiple Configurations

Swing Doors

Single Swing

Swing doors operate in various ways with a variety of hardware. CAOBA offers inswing, outswing, and double action doors in both single and double configurations, transoms and sidelights can be added to achieve a dramatic visual look. Swing doors may be manual and can be easily automated with multiple mechanism types. CAOBA is able to fabricate unlimited designs in multiple dimensions.

Double Swing

Folding

A folding door is a type of door that is opened by folding panels into a so-called accordion position. This particular way of opening the sashes in the door creates the opportunity to bring two indoor or outdoor spaces into one. For compact and flexible spaces choose a CAOBA Bifold door.

Interior Doors

Discover sophistication with CAOBA's interior doors. Equipped with cutting-edge technology and crafted by a team of top-tier engineers and skilled craftsmen, our doors offer a seamless integration of quality and style. Choose from a comprehensive range of interior doors, featuring various wood species, textures, stains, and finishes.

Multiple Configurations

Gates, Garage & Barn Doors

Garage Door

Direct Set

Experience an incredible view and natural light in your home, featuring a minimal wood framework with CAOBA's Direct Set windows.

One-piece profiles have high energy efficiency, provide seamless sight lines, and an overall modern look, which mix and match perfectly with any other operating window.

A Direct Set window is great on its own and the definition of sleek design!

Casement

Casement windows are versatile in many forms. They can have multiple shapes and can operate either on the interior or the exterior. Casement windows can be manual or automated and can be stacked together to create airflow in larger spaces.

Single, Double & Triple Hung

Hung windows operate vertically making them excellent choices for windows on a second story, they also do not project themselves which allows them to work in tight spaces.

CAOBA offers Single, Double, and Triple-hung windows with minimum sightlines as well as historical reproductions. Hung windows are available in weights and chains or with balancers.

Shutters & Louvers

Millwork

A photograph of a white house with a balcony. The balcony has a white railing with vertical balusters and a dark wood handrail. A black lantern-style light fixture hangs from the ceiling of the balcony. The house has white siding and a dark roof. A large, diagonal, tan-colored overlay covers the right side of the image. In the foreground, there are green plants with large, rounded leaves.

Some of our millwork includes:

- Beams
- Trellis
- Closets
- Flooring & Decking
- Cellings & Pannelings
- Shutters
- Louvres
- Siding
- Railing

Trellis

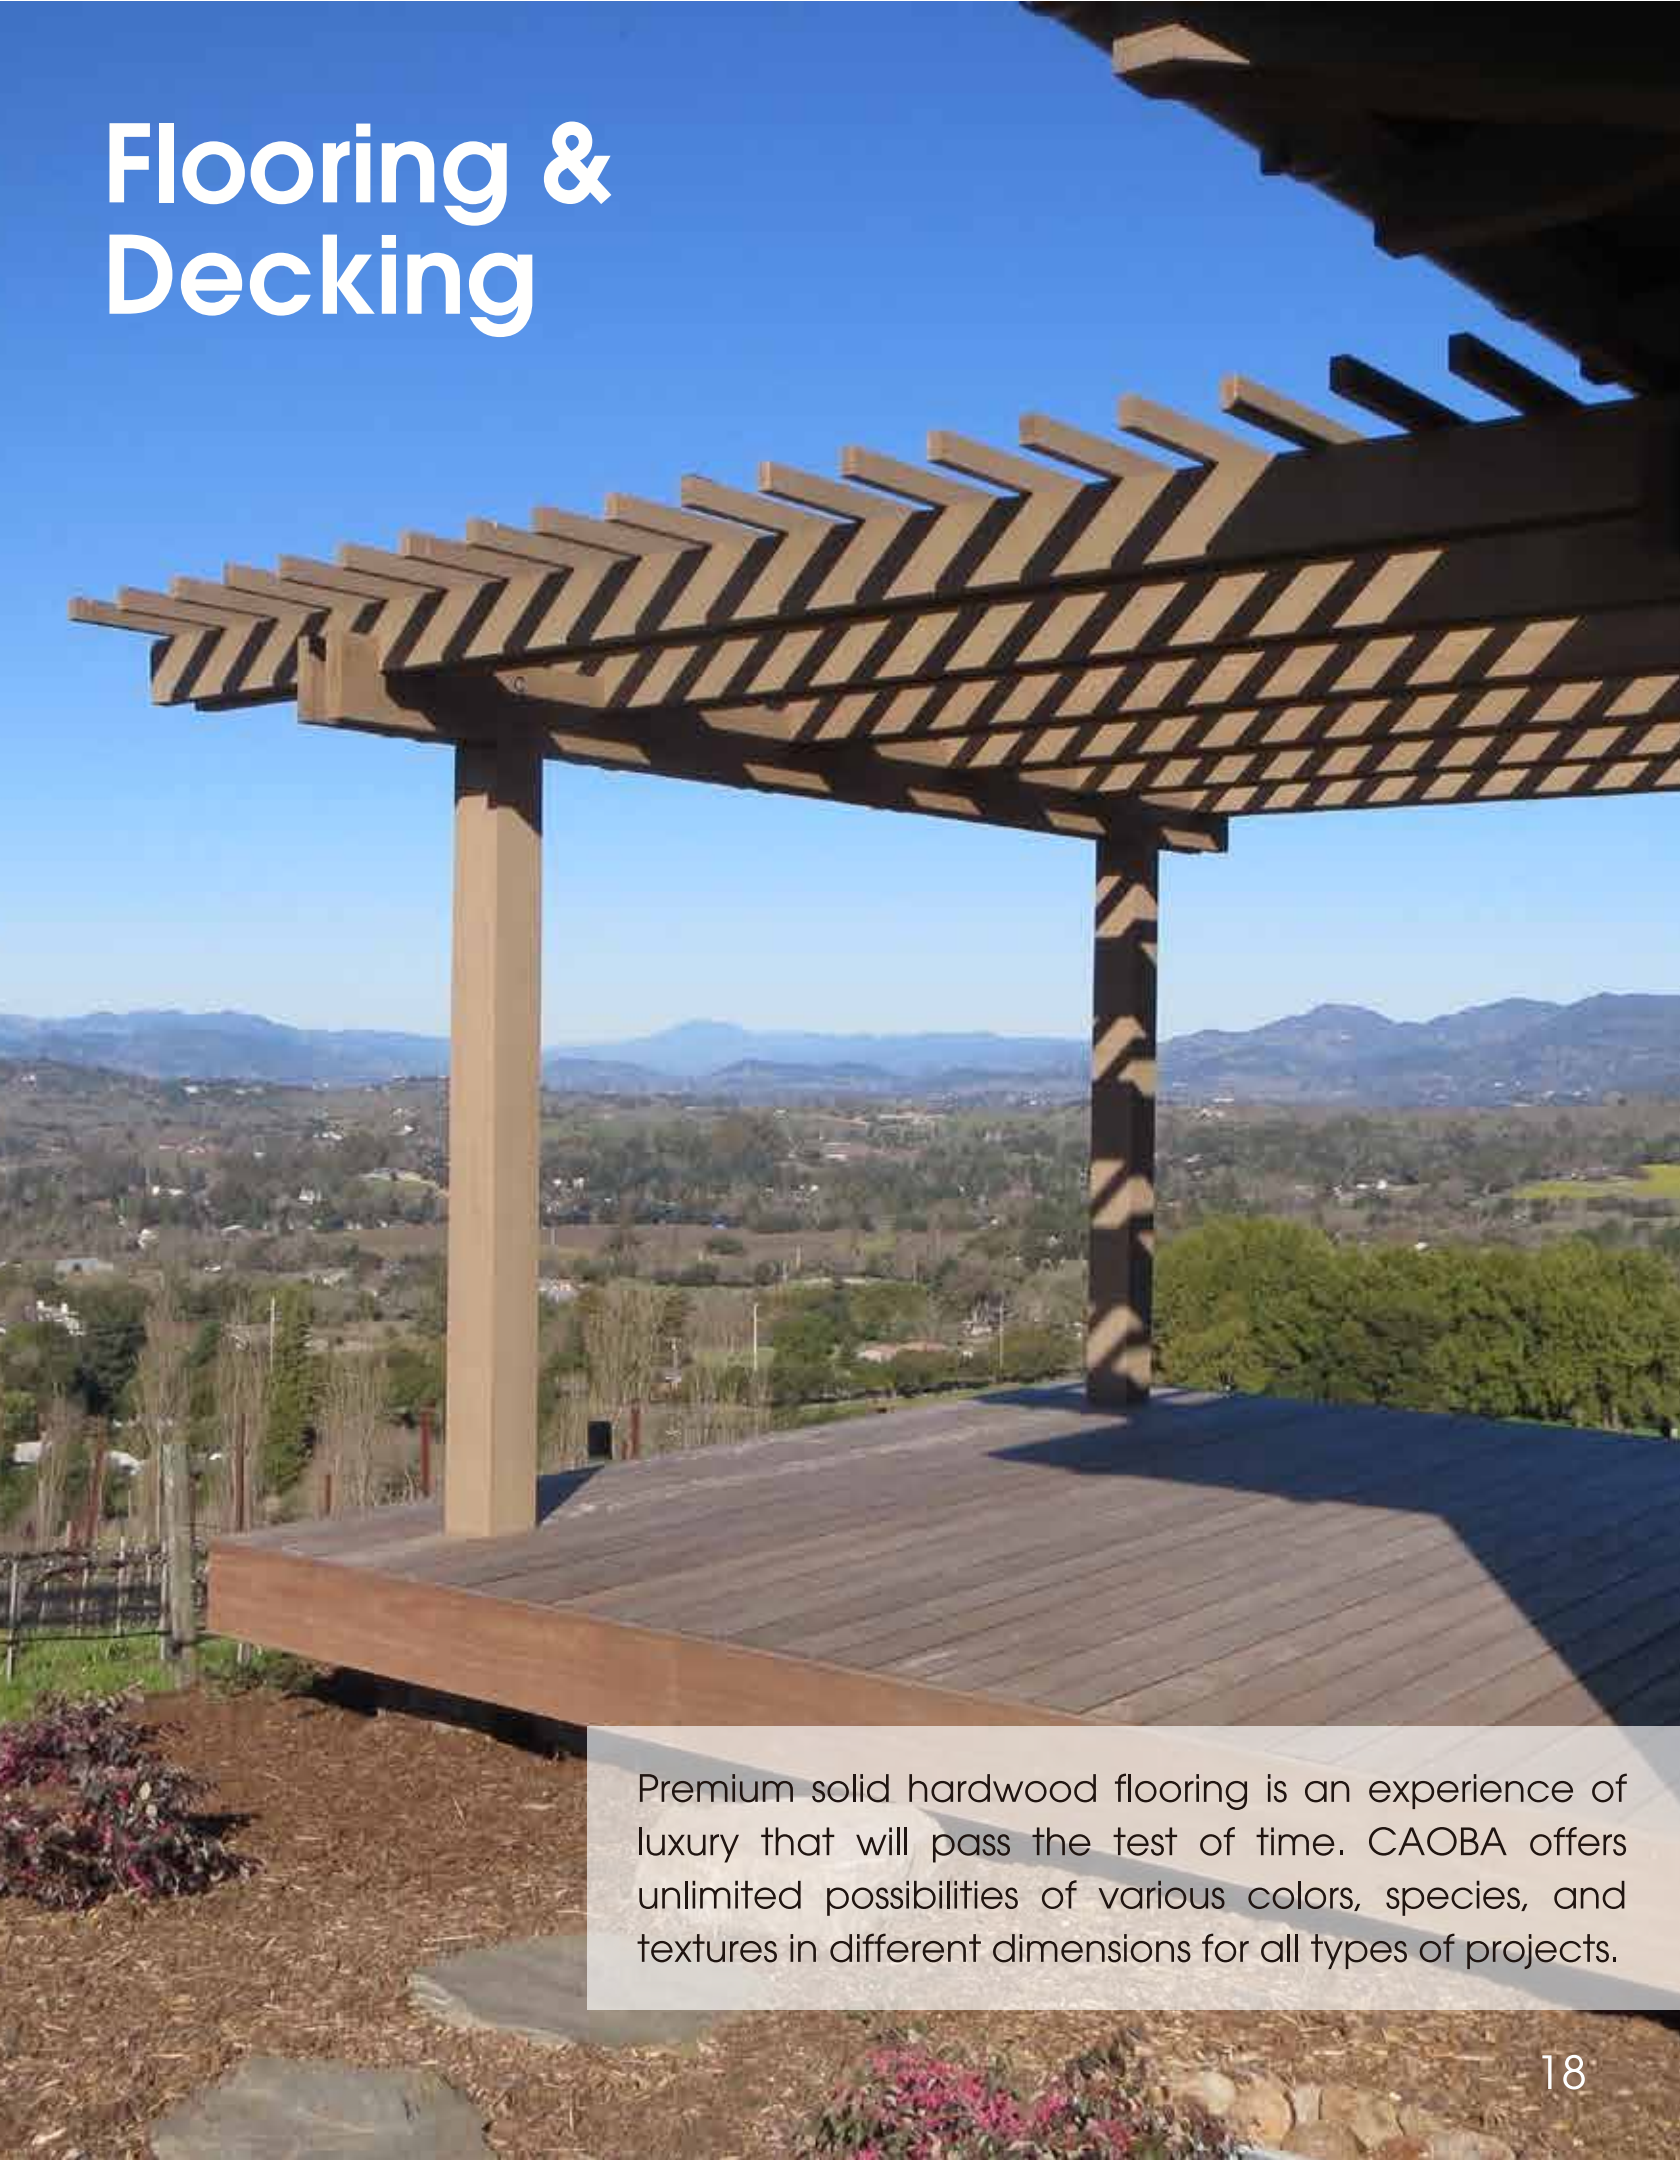

Beams

CAOBA specializes in custom architectural millwork for residential, and commercial industries.

Make it a one stop shop and choose CAOBA.

Flooring & Decking

A large wooden pergola with a lattice roof and a wooden deck, overlooking a valley with mountains in the background. The pergola is made of light-colored wood and has a flat roof with a grid of slats. The deck is also made of wood and is surrounded by a low wooden railing. The background shows a valley with houses, trees, and mountains under a clear blue sky.

Premium solid hardwood flooring is an experience of luxury that will pass the test of time. CAOBA offers unlimited possibilities of various colors, species, and textures in different dimensions for all types of projects.

Ceilings, Paneling & Siding

Whether you are aiming for a cozy feel, a sleek look, or texture-rich dimensions wood paneling can add style to your space.

CAOBA's range of interior wood ceilings offers a wide variety of wood finishes and natural tones that will give your ceiling project a breathtaking finish. Each of our wood finishes has its own unique characteristics, choose from different species allowing you to create stunning designs for any ceiling void.

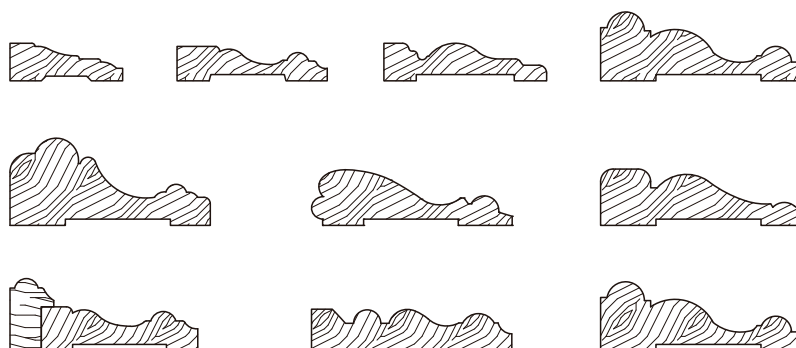

A photograph of a curved wooden staircase with a modern railing system. The railing consists of a dark brown wooden handrail and vertical balusters. The staircase is built against a wall made of light-colored, textured stone blocks. Above the staircase, there is a curved glass-enclosed structure, possibly a balcony or a room, with a wooden frame. The background shows a blue sky with white clouds and some green foliage on the left.

Railings

Railings, handrails, or staircases, are a timeless design element that can enhance the look of any home's style.

Moldings

We provide an extensive range of wooden moldings and trim designs that can help you revamp your home in a unique and innovative way. CAOBA caters to new and exciting applications by manufacturing blades that will meet your custom design. If you are looking to add finishing touches to your project or incorporate meaningful accents to enhance your theme, moldings are an immensely valuable tool in creating a customized appearance.

Warranty

At CAOBA, we build the highest quality products for our customers, using only the best-sourced materials and trustworthy suppliers with the latest manufacturing procedures in the industry.

QUALITY

CAOBA warrants the quality, and workmanship of all window, door, and millwork products to be free of defects that might render the product unserviceable for a period of five (5) years.

CAOBA in-house stain and opaque finishes on all window, door, and millwork products are warranted to be free from defects for a period of two (2) years with a 5-year extension if maintenance procedures are applied.

CAOBA's in-house paint finishes in all exterior doors, windows, and millwork products are warranted to be free from defects for a period of five (5) years.

FINISH

CAOBA warrants the quality, and workmanship of Aluminum Clad & Clad finish products for ten (10) years against loss of adhesion, chalking, or significant ultraviolet discoloration caused by natural environmental atmospheric conditions.

GLASS

CAOBA meets Q3 ASTM quality glass standards:

Clear insulating glass is warranted against seal failure resulting in visible obstruction through the glass ten (10) years from the original date of purchase.

Laminated SGP Glass has a limited ten (10) years warranty for delamination.

Laminated PVB Glass has a limited five (5) year warranty for delamination.

Elevate your project with CAOBA!
